Profile

Passionate and innovative web and app developer with a flair for crafting immersive digital experiences. Proficient in a range of programming languages and frameworks, dedicated to delivering sleek and functional solutions tailored to client needs. Constantly evolving with the latest technologies to stay ahead of the curve and drive impactful results. Let's collaborate to transform your ideas into dynamic realities!

Employment History

Senior Developer , It-infotech

MARCH 2020 - MARCH 2024

Energize your digital presence with a dynamic web and app developer fueled by passion and expertise. Proficient in a plethora of programming languages and frameworks, I bring innovation to life, crafting seamless user experiences that captivate and convert. In the realm of web design, creativity meets functionality to form the cornerstone of captivating online experiences. Every pixel, color, and element is meticulously curated to resonate with the target audience and reflect the essence of the brand. With a keen eye for detail and a commitment to staying at the forefront of industry trends, I thrive on turning visions into reality, blending aesthetics with usability to create visually striking yet intuitively navigable websites and apps. By harnessing the power of cutting-edge design tools and techniques, I craft bespoke solutions that not only engage but also inspire action, ensuring that every click leads to meaningful connections and conversions. Let's collaborate to transform your ideas into stunning, functional realities that leave a lasting impression.

Education

MCA, Surat

JANUARY 2017 - APRIL 2020

Having graduated with a Master's in Computer Applications (MCA), I stand at the intersection of theory and practice, equipped with a comprehensive understanding of advanced computing concepts and their real-world applications. Throughout my academic journey, I delved into diverse subjects, from software engineering to database management, honing my analytical and problem-solving skills. My MCA program provided me with a solid foundation in programming languages, algorithms, and software development methodologies, empowering me to tackle complex challenges with confidence and creativity. Armed with this knowledge, I am ready to embark on a journey of innovation and excellence, leveraging my expertise to make meaningful contributions to the ever-evolving landscape of technology.

Internships

PHP Developer , It-infotech

FEBRUARY 2022 - APRIL 2024

Expertise in PHP : Proficient in PHP, I have a deep understanding of its core concepts, frameworks (such as Laravel and CodeIgniter), and best practices, enabling me to develop efficient and maintainable code.

Database Management : I have extensive experience working with databases, including MySQL, PostgreSQL, and MongoDB, adept at designing and optimizing database schemas for improved performance and scalability.
